

American Mathematics Olympiad (AMO)

Registration opening soon

The American Mathematics Olympiad is an international math competition for elementary, middle and high school students jointly organised by Singapore International Mastery Contests Centre (SIMCC) and Southern Illinois University (SIU). It promotes the importance and a deeper understanding of math.

This is a good opportunity for the students to gain exposure to the rigor of the Math Olympiad and pit their skills against other participants. AMO will award medals and certificates to the Top 40% of the participants. All winners are invited to compete at Singapore International Math Olympiad Challenge (SIMOC). The Top 20% of winners are invited to compete in STEAM AHEAD - IJMO.

Further details to be provided when available.
