

International Chemistry Quiz (ICQ)

Competition completed; awaiting for results

The International Chemistry Quiz (ICQ) is organized by ASEEDER (Seed International). Since its inception in 1982, it has become a global competition that attracts over 100,000 students from 21 countries and regions annually. The problems on the ICQ are designed to encourage and inspire students to pursue careers in Chemistry and STEM.

The International Chemistry Quiz is a 60-minute competition aimed at students up to 18 years old around the world. The paper has 30 multiple-choice questions. The ICQ is not a test of syllabus content. While some questions will rely on knowledge and understanding covered as part of studying the Australian Curriculum, RACI have endeavoured to make the quiz interesting and to promote chemistry and chemical thinking. To recognize the highest performers, the perfect score participants will be awarded medals. In addition, Awardees will be qualified for the 2026 ICQ Asia Camp in the summer in China. Details are as follows:

Date: Friday, 8 August 2025
